

**In this month's Hydrafile:****www.HYTECH.co.nz website update**

The HYTECH website has been refreshed and upgraded with a brand new quicker to help you find the information you are after.

Borrowing from the HYSPECS website we've carried the Company theme through giving the user a familiar experience. Company info, downloads, product information and on-line request forms are all there. Browse our full range of products by Category (Hydraulic Manifolds, Cartridges, Manifold Accessories), Brand or alternatively if you know the part number of the item you are after, use our in-built search engine to find it.

[Click here](#) to take a look around our brand new HYTECH website.

**New product**

**Donaldson T.R.A.P. breathers** - stops trouble before it gets in. T.R.A.P. breathers on the market that literally strip moisture vapour from the intake atmosphere on the outflow cycle. In doing so the filter continuously regen

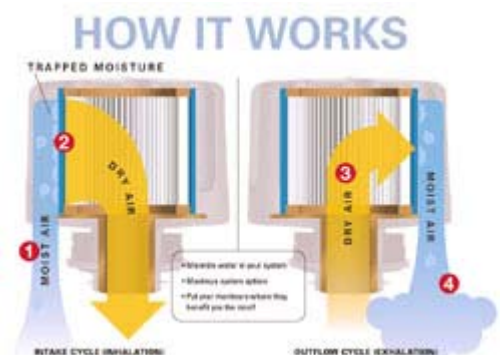

We stock two types of breather heads:

**P565616** - filler breather with bayonet adaptor and electronic indicator, designed to fit with the bayonet flange / 4" nylon basket, P563874.

**P564669** - breather with electronic indicator, designed to screw directly into a 1" NPT bulkhead fitting, usually mounted in the lid of the oil tank.

[Click here](#) to download the Donaldson T.R.A.P. brochure. [Click here](#) to download the specification sheet for the T.R.A.P. breathers.

For more information or to purchase a Donaldson T.R.A.P. breather [visit our on-line shop](#) or talk with one of our sales engineers by using the contact details in the footer.

## Hydraulic manifold design

Utilising 3D ProE computer software our skilled programmers can take conceptual hydraulic manifolds from design through to completion. This powerful software package allows designs to be easily viewed and checked from every angle to make sure all external and internal features are in the correct positions.

HYTECH can even offer you a free ProE viewing program that you can load to check or sign off your project design wherever you happen to be.

Install the program from our Downloads section [here](#).

Regards

Nick Cottier
