

In this month's Hydrafile:**Featured Product - EOS DC Power Packs**

In addition to our range Haldex DC power packs, Hyspecs stocks a 12 VDC mini power pack from EOS.

Features include:

- * 12 VDC fully integrated pump, electric motor, tank and valving to suit a single acting application
- * Weather resistant solenoid starter switch
- * Integral hand-pump for power failure backup
- * Solenoid dump valve with manual backup
- * Pump, 0.8cc/rev, 1 litre tank, 12 VDC motor 800w

For more information on the EOS power packs call Hyspecs to talk with one of our sales engineers or email us at: <mailto:hydrafile@hyspecs.co.nz>

Stage One Hydraulic Seminar

Hyspecs stage one hydraulic seminar was so popular at the end of last year that we had to turn late registers away. As such we are proposing to hold another seminar in our Auckland branch on the 11th and 12th of May. At this stage we need a few more attendees to confirm and go ahead with the seminar.

The course is run over two days by Richard Krebs and gives an introduction into hydraulic components and their operation. Subject matter covers generic types of pumps, motors and valves and the course content provides an understanding on how these components operate, are applied and conditions that may lead them to fail.

Basic fault-finding is also covered and all topics are presented in an open forum question/answer format.

The cost per attendee for the two day course is \$450 + GST. This includes all reading/writing material, food and a beer or two at the end of each day! You just have to turn up.

If you're interested in attending or sending someone else to the seminar then send an email to <mailto:seminar@hyspecs.co.nz> or alternatively download the registration form from http://www.hyspecs.co.nz/DataSheets/Seminar2006_Intent_Flyer_AK.pdf

Hyspecs Power Transmission

Hyspecs is now a one stop shop for all your power transmission requirements; from gearboxes, pumps and motors to electric motors and controllers to all your coupling and drive line accessories. To find out more download the brochure from

http://www.hyspecs.co.nz/DataSheets/PT_Brochure.pdf

For more information talk to our national product manager Brent Cleland on 029 200 4823 or email him directly: <mailto:brentc@hyspecs.co.nz>

Kind regards

Nick Cottier
