

In this month's Hydrafile:**New Building - Auckland**

We've out grown our current Auckland location and its time to move. Our new purpose built premises is almost complete and Hytech, our manufacturing arm is expecting to move in mid-June, followed by Hyspecs and Hytrans in late August.

The new building is four times the size of our current location so we may find ourselves rattling around in the space to begin with. Started late last year the build will have taken just on 6 months to complete. No mean feat considering the scale of the project. Some features of the new building:

- * Warehouse space 1726 m2 with an additional Mezzanine floor of 766 m2
- * Current stock will fit underneath new mezzanine allowing for larger stock holding
- * Office space of 706 m2
- * 2-road frontages for easy access
- * Located close to Highbrook interchange for easy motorway access
- * New custom built test facilities
- * Dedicated customer meeting rooms
- * Large product display area with wind lobby for comfort
- * Over-head gantry crane rated to 2T
- * State of the art audio visual training / seminar room
- * Larger shop floor for our new horizontal CNC machine - Doosan HP5100
- * Ample customer car parking
- * Brings Hyspecs, Hytech and Hytrans under the one roof

[Click here to view more building photos posted on our website.](#)

We'll be just down the road from our current Lady Ruby Drive location, at 32 Crooks Road, East Tamaki. Phone numbers and postal addresses will remain the same. [Click here](#) for a location map of 32 Crooks Road.

Check back next month for an update and a feature on Hytech's new Doosan HP5100 CNC machine.

Featured Product Range - Hyspecs Oil Tanks

Hyspecs range of steel oil tanks have had a design overhaul to make them even better. The new part numbers are HT100, HT150 and HT200 for 100, 150 and 200 litres of nominal oil capacity respectively.

For sizes smaller than 100L our aluminium tanks from OMT can be used. We can get any tank style and size custom made to your specifications in approximately 2 weeks.

[Click here](#) to download the product information sheet including pricing for our range of oil tanks.

The design has been changed to incorporate the following.

- * Outward top flange with Nylock nuts and bolts
- * Sloped bottom floor for easy draining via removable steel plug
- * Baffles available on request (extra cost)
- * Sealon adhesive tape that customer installs to provide dust proof and waterproof lid seal
- * All external welds TIG/MIG welded, continuous, no slag and checked by liquid penetration
- * Pre-drilled bolt down holes
- * Primer etched inside and out

To enquire about our new oil tanks, talk with one of our sales engineers by using the phone numbers listed in the footer or drop us an [email](#).

Staff News

Due to sustained growth we've had heaps of new people join the Hyspecs crew since we last did a staff news feature. So many in fact that we have to split our introductions over two Hydrfiles.

Andrew Ieremia

Jonathan Shaw

Sam Dhar

Scott Clemens

Andrew (OEM & Technical Assistant) started with Hyspecs mid 2007. With 5+ years experience in the hose and fittings industry Andrew is utilising those skills in our OEM department.

Jonathan (Service Engineer) started with Hyspecs in early 2008. Before joining us Jono obtained an HNC in mechanical and production engineering with GEC Steam Turbines in the UK. He then spent 10 years working in NZ in an R&D/plant maintenance/service engineer role that saw him travelling to Aussie and the UK.

Sam (Sales Engineer - Power Transmission) has a degree in Mechanical Engineering and four years' sales and service experience in the manufacturing industry. He has joined the Hyspecs Power Transmission division which supplies industrial gear drives and transmission accessories.

Scott (Sales Engineer) joined Hyspecs in 2008 after studying engineering at the University of Canterbury. Scott comes from an agricultural background and has experience operating and servicing a range of mobile heavy agricultural machinery.

For more staff profile information visit our website by [clicking here](#). Next month we will introduce four new staff from our Hyspecs Christchurch [service department](#).

Until next month all the best with business.

Nick Cottier
Marketing & IT Manager
